DRAFT ELECTIONS (SENATORS) (JERSEY) AMENDMENT LAW 202- (P.56/2025): AMENDMENT (P.56/2025 AMD.) – CHILDREN’S RIGHTS IMPACT ASSESSMENT

**Presented to the States on 20th August 2025
by the Connétable of St. Helier**

STATES GREFFE

CHILDREN'S RIGHTS IMPACT ASSESSMENT (CRIA)

PART 1: SCREENING

Name and title of Duty Bearer:	Connétable of St. Helier
Type of Duty Bearer: (Minister, Elected Member or States Assembly Body)	Elected Member
Assessment completed by (if not completed by duty bearer):	Members' Resources Team
Date:	19.08.25

1)	Name and brief description of the proposed decision The subject of your CRIA may be a proposed law, policy or proposition and in accordance with the Law is referred to in this template as the 'decision' - What is the problem or issue the decision is trying to address? - Do children experience this problem differently from adults?
The decision seeks to reduce the number of Senatorial seats in the 2026 elections by 2 and to add one Deputy seat to St Helier South and St Helier North. Children do not experience this problem differently from adults.	
2)	Which groups of children and young people are likely to be affected? Groups of children could include early years, primary or secondary education; young adults; children with additional learning needs; disabled children; children living in poverty; children from particular ethnic backgrounds; migrants; refugees; care experienced children and LGBTQ+ children
Children would not be affected in any substantial way – any impacts would not be any different to the current position.	
3)	What is the likely impact of the proposed decision on children and on their rights? - Identify any potential positive OR negative impacts and include indirect impacts on children and their rights as described in the UNCRC - Will different groups of children be affected differently by this decision?
No impact on children's rights.	
4)	Is a full Children's Rights Impact Assessment required? If you have identified impacts on children and their rights, a full CRIA should be completed. If no impacts are identified then a Full CRIA is not required, but please explain your rationale and how you reached this conclusion
No
