Paul Wylie
Chief Executive Officer
Government of Jersey

BY EMAIL

3 November 2026

Dear Paul,

Critical Infrastructure Resilience – Cyber Security

In the absence of a response by the Executive, the Public Accounts Committee (PAC) was disappointed that the Comptroller and Auditor General could once again not provide an update on their report 'Critical Infrastructure Resilience – Cyber Security' [R.78/2026] at the last PAC meeting held on 28th October 2026.

The Committee has considered and agreed the request, dated 28th October, for a two-week extension to the Executive Response deadline. The Committee therefore expects the response to be provided to the Comptroller and Auditor General by Wednesday 11th November 2026.

Whilst the Committee has agreed this request, it is very disappointed that a further extension has been sought. The Committee places significant importance on adherence to agreed deadlines and expects the necessary arrangements to be put in place to avoid similar situations arising in the future. It would not expect to be asked to consider comparable extensions on a routine basis.

Yours sincerely,

Karen Jn-Wilson

Deputy Karen Wilson
Chair
Public Accounts Committee
