Subject: DFDS

I traveled on Stena vinga it's ok but truthfully Brittany ferries are far better I personally think we made the wrong choice noticed today st malo boat cancelled today and tomorrow. No winter fast ferries to Poole condor operated the liberation at certain times in the winter.

If we want French visitors sure I we should be operating French ferries it's a no brainer.

No winter fast ferry service to uk from jersey No extra sailing on Xmas or limited service at Easter shame on you Jersey government for allowing this to happen... voyager to Poole from Guernsey operates over the winter 20 years of this level of service to look forward to.
