Subject: DFDS contract review

Thank you Monty for the offer to speak further on this.

I have just seen the news that the scrutiny panel will be reviewing the terms of the DFDS contract. If you are able to include inter-island sailings within the review this would be much appreciated by the many travellers who, like myself, are disappointed by the current situation.

It is still unclear why an inter-island commitment was not written into the contract as it seems to have been with Brittany Ferries.

Although Islands Unlimited have run a very good foot passenger service over the summer, they are quite restricted by sea conditions and of course they do not take vehicles.
