

Submission – Natalie Kanaar – 1st October 2025

I do appreciate the correspondence being shared with us, and our views also to be considered.

As a registered laser provider, I would very much like to see the inclusion of IPL users in Jersey, to be regulated.

This would ensure adequate training and safe measures are in place and will provide reassurance to the general public seeking treatment, that the procedures at the salon of their choice are carried out by competent clinicians, with well maintained equipment and in a safe environment.
