Nothing good to say here!

Overpriced this year's £150 more expenses than last year on the st malo route !

No, into Island service,

Older boats take longer, longer travelling times than ever! That's if they run or not cancelled! Every time I travelled last year, the boat was late no apology!

This is one thing I've noticed is never been published as much as it wouldn't be if it was condor that was running late or cancelled! Find there's a bit of biased here against condor!

The conventional ferry is more like a dog's home! Dogs in the restaurant eating off the tables where humans eat! Dogs on leads walking through the cafeteria! Dogs waiting in the queue to get food with humans! And the food on this boat is absolutely shocking sausage rolls and pasties for dinner! Thought the food on condor was bad but this is diabolical!

Something has to be done! Because this is an epidemic in slow motion ruining tourism! Mind your toys on is dead already can't get much deader!
