Subject: DFDS

One cannot govern the weather nor the tides but the abysmal timetable leaves a lot to be desired and islanders are literally stranded who do not wish to take a unnecessary slow journey to Portsmouth .

Ending the fast service at the end of September until Easter to us as frequent travellers with a vehicle is not acceptable

We were frequent travellers with Condor who offered a far superior timetable and service to both islands Dfds offer nothing in the way of 'frequent travellers' in comparison Very very very disappointed with Dfds Thank you
