Subject: Ferry Service

Previously we regularly used Condor to the UK about 8 trips a year. Now you cannot get a cabin let alone a disabled one and if you can they are bunk beds - how are you expected to climb onto that when 75 years old!! There are no shorter ferries to Poole until May and we cannot be expected to sit in a chair for 12 hours. We are travelling in 3 weeks time and have had to fly and manage without a car. The finer details of the DFDS contract were not considered properly! Come back Condor all is forgiven.
