Subject: Ferry Travel

Since the new contract has been put in place I have been unable to travel to guernsey with the car due to lack of ferry service which I used to do 7 times a year

In terms of St Malo I would not do day trip as over 4 hours would be spent at sea , again I would have done 4 of these In terms of UK despite a minister assuring us of quicker journey times we are left with longer journey times and no fast ferry for half the year

As for air travel to Guernsey please tell me how the Jersey Government sit and do nothing at all when the Guernsey Government make jersey guernsey a life line route , why ??? then invite applications and then grant a license to an airline it owns which lost £6m last year

Logan Air will most probably pull out of Jersey now as it won't be viable

The whole situation. Is shocking and politicians need to be held to account for a total lack of action
